We hadn't gone far before a middle aged man, also well dressed and well groomed, appeared some distance in front of us down the gravel walk, and he beckoned to my companion. The young man excused himself courteously and went up to the middle aged man. The two conversed earnestly together for a few minutes, and then, linking arms,

" 'Surprised over the way they deserted you?' said a voice right back of me. 'You mustn't mind a little thing like that, though. Both of those men are as crazy as loons."

"I turned around, and there, standing behind a hedge about ten feet to my rear, was a little old gentleman, neatly dressed in black, and with a quinzical smile on his features.

'Surely.' I said, 'you cannot mean that that rational speaking, pleasant mannered young man who was conducting me about the grounds is bereft of " 'Mad as a March hare,' repeated

## CANCER IS DEADLY!

This fearful disease often first appears as a mere scratch, a pimple, or lump in the breast, too small to attract any notice, until, in many cases, the deadly

disease is fully developed.

Cancer can not be cured by a surgical Cure Found at Last operation, because the disease is a virulent poison in the blood, circulating throughout the system, and although the sore or ulcer-known as the Cancer-may be cut away, the poison remains in the blood, and promptly breaks out afresh, with

renewed violence. The wonderful success of S. S. S. in curing obstinate, deep-scated blood diseases which were considered incurable, induced a few despairing sufferers to try it for Cancer, after exhausting the skill of the physicians without a cure. Much to their delight S. S. S. proved equal to the disease and promptly effected a cure. The glad news spread rapidly, and it was soon demonstrated beyond doubt that a cure had at last been

mulated which is incontrovertible, of which the following is a specimen : "Cancer is hereditary in our family, my father, a sister and an aunt having died from this dreadful disease. My feelings may be imagined when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way as to cause great alarm. The disease seemed beyond the skill of the doctors, for their treatment did no good

grew steadily worse, until it seemed that I was doomed to follow the others of the family, for I know how deadly Cancer is, especially when inherited. I was advised to try Swift's Specific (S. S. S.), which, from the first day, forced out the poison. I continued its use until I had taken eighteen bottles, when I was cured sound and well, and have had no symptoms of the dreadful affliction, though many years have elapsed. S. S. S. is the only cure for Cancer.—Mrs. S. M. Ipol., Winston, N. C.
